**ADVANCED LEVEL NATIONAL EXAMINATIONS, 2018,  
TECHNICAL AND PROFESSIONAL STUDIES**

**EXAM TITLE:**

**OPERATING SYSTEM, MAINTENANCE AND REPAIR**

**OPTION: Computer Electronics (CEL)**

**DURATION: 3 hours**

**INSTRUCTIONS:**

The paper is composed of **three (3) main Sections** as follows:

**Section I: Twenty one (21) compulsory questions. 55 marks**

**Section II: Attempt any three (3) out of five questions. 30 marks**

**Section III: Attempt any one (1) out of three questions. 15 marks**

**Note:**

***Every candidate is required to carefully comply with the above instructions. Penalty measures will be applied on their strict consideration.***

**Section I. Twenty one (21) Compulsory questions**

**55 marks**

- 
- 01.** What is the advantage of open source? **(2 marks)**
- 02.** GUI stands for the Graphical User Interface.
- a)** Briefly explain the term GUI. **(2 marks)**
- b)** Write two advantages and two disadvantages of GUI. **(4 marks)**
- 03.** How can you determine the total memory used by LINUX? Give the five (5) methods that help to determine the total memory. **(5 marks)**
- 04.** Write a command that will display all .txt files, including its individual permission. **(1 mark)**
- 05.** Differentiate Real Time from Time Sharing Systems? **(2 marks)**
- 06.** The operating system controls and coordinates the use of hardware among the different processes and applications. What are really the main functions of operating system? **(3 marks)**
- 07.** Name the functions constituting the OS's memory management. **(2 marks)**
- 08.** Name the different types of memory. **(2 marks)**
- 09.** How are data structures handled by NTFS and how does it recover from a crash? **(5 marks)**
- 10.** Briefly explain the positioning time for a disk. **(3 marks)**
- 11.** Differentiate the user mode from monitor mode. **(4 marks)**
- 12.** What are the activities related to the Time Shared User Program Management? **(3 marks)**
- 13.** What is multitasking? **(1 mark)**
- 14.** What is a folder in Ubuntu? **(2 marks)**
- 15.** Explain why Ubuntu is safe and not affected by viruses? **(3 marks)**

16. When an input file is opened, what are the possible errors that may occur? (2 marks)
17. What complications does concurrent processing add to an operating system? (3 marks)
18. How is Memory measured? (1 mark)
19. What is the role of memory or RAM in the computer system? (2 marks)
20. How does dynamic loading aid in better memory space utilization? (1 mark)
21. Briefly explain this notation "C:\directory\subdirectory\ filename". (2 marks)

**Section II. Choose and answer any three (3) questions. 30 marks**

22. Give the meaning of these Linux commands. (10 marks)

Command	Meaning
ls	
cd	Controlling a cd room
passwd	it used for changing a password
file	
cat	
pwd	
Exit or logout	
man	
info	It shows details
apropos	

23. List and explain the content of any ten subdirectories of the root directory in Linux. (10 marks)

24. List and explain any five characteristics to consider while choosing a printer. **(10 marks)**

25. You are called by the accountant officer, complaining that the printer has a problem. Assuming that the printer is on and is well connected to the computer; explain any five problems that could be possible causes of the printer malfunctioning. **(10 marks)**

26. Give any five (5) configuration files and their corresponding services in Linux. **(10 marks)**

**Section III. Choose and answer any one (1) question. 15 marks**

---

27. Explain the following concepts:

(a) SRAM      (b) DRAM      (c) SDRAM      (d) DDR SDRAM      (e) RDRAM **(15 marks)**

28. Explain the shell script. **(15 marks)**

29. a. Give any five problems that can damage the data on the internal storage of the PC.  
b. Give disadvantages of Tape backup drives. **(15 marks)**
