

Universities

Study in Finland 2012–2013

Foreword

Finnish universities promote free research and provide research-led education. The universities educate students to serve their country and humanity.

Universities in Finland are either independent corporations under public law or foundations under private law. They enjoy distinctive autonomy. Universities are financed mainly from the government budget, but they also seek supplementary external funding.

There are 16 universities in Finland operating under the Ministry of Education and Culture:

- 10 multi-faculty universities
- 2 universities of technology
- 1 separate business school
- and 3 art universities. [page 3](#)

Universities confer Bachelor's degrees (3 years, 180 ECTS credits), Master's degrees (2 years, 120 ECTS credits) and Doctoral degrees (4 years, 240 ECTS credits). [page 26](#)

Finnish universities provide over 200 Master's degree programmes [page 16](#) and over 30 [page 23](#) doctoral programmes in English.

Degree education is free at Bachelor's level and doctorate level, also for international students. On Master's level, institutions may charge tuition

fees from non-EU/EEA nationals in certain degree programmes in English.

Students enrolled in these Master's programmes can apply for institutional scholarships.

The Centre for International Mobility CIMO provides designated scholarships for doctoral-level studies and research at Finnish universities.

More information is available at:
www.studyinfinland.fi/scholarships

Finnish higher education institutions select their students independently. Procedures and practices vary from one university and faculty to another.

To apply to an international Master's degree programme in a Finnish university, check the entrance requirements of each institution, as the requirements vary between the universities, and they may also vary according to the programme.

Generally, you will need to have a Bachelor's degree in a corresponding subject and a good command of English (an acceptable TOEFL/IELTS score) to apply to a Master's programme. The universities have introduced a joint application service at www.universityadmissions.fi. However, some institutions still require direct applications.

Aalto University

Aalto University, established in 2010, is a new multidisciplinary science, business and art community. The university was created through a merger of three leading universities in Finland: the Helsinki School of Economics, the University of Art and Design Helsinki, and the Helsinki University of Technology.

Aalto University offers you the highest level of education in business and economics, art and design, and technology and engineering.

You can study combinations of these disciplines within the framework of your own degree.

Aalto University consists of six schools: School of Arts, Design and Architecture, School of Business, School of Chemical Technology, School of Electrical Engineering, School of Engineering, and School of Science.

Fields of education: Art and Design, Business and Economics, Science and Technology

Bachelor's Degree Programmes in English: International Business

Master's Degree Programmes in English:

Field of Art and Design:

Applied Art and Design, Creative Sustainability, Design for Theatre, Film and Television: Costume Design / Production Design / Scenography, Environmental Art, Fashion and Clothing Design, Film and Television: Screenwriting for Film and Television, Furniture Design, Graphic Design: Media Concept Design / Visual Communication Design, Industrial and Strategic Design, New Media, International Design Business Management, New Media, New Media: Game Design and Production, Photography, Sound in New Media, Spatial Design, Textile Art and Design, Visual Culture

Field of Business and Economics:

Accounting, Corporate Communication, Creative Sustainability, Economics, Entrepreneurship, Finance, Information and Service Management, International Design Business Management, Management and International Business, Marketing, Strategy

Field of Science and Technology:

Bioinformatics, Bioproduct Technology, Brain and Mind, Communications Ecosystem, Communications Engineering, Creative Sustainability, Electrical Engineering, Foundations of Advanced Computing, Geoinformatics, International Design Business Management, Machine Learning and Data Mining, Managing Spatial Change, Mechanical Engineering, Micro and Nanotechnology, Mobile Computing - Services and Security, Physics of Advanced Materials, Process Systems Engineering, Radio Science and Engineering, Real Estate Investment and Finance, Service Design and Engineering, Service Management and Engineering, Strategy, Structural Engineering

International Double Degrees:

Master's Programmes in: Applied and Engineering Mathematics (N5TeAM) / ICT Innovation (EIT ICT Labs Master School)

Master's Degree Programmes in: Communicative Electronics for Smart Environment Technologies / Computational and Systems Biology (euSYSBIO) (Erasmus Mundus) / Environmental Pathways for Sustainable Energy Systems (SELECT) (Erasmus Mundus) / Security and Mobile Computing (NordSecMob) (Erasmus Mundus) / Space Science and Technology (SpaceMaster) (Erasmus Mundus)

Nordic Master Programmes in: Environmental Engineering / Innovative and Sustainable Energy Engineering / Maritime Engineering / Sustainable Urban Transitions

Double Degree Programme in: Management and Business Administration with IAG-Louvain School of Management / Business Administration with University of Cologne

Doctoral Programmes in Art and Design, Chemical Technology, Economics, Electrical Engineering, Engineering, Science

Åbo Akademi University

Åbo Akademi University is an internationally acknowledged research university and the only Swedish-language multidisciplinary university in Finland. Åbo Akademi University provides research and education in most disciplines, and the abundant supply enables multidisciplinary entities in both research and education. ÅAU has an acknowledged position at the forefront of research in areas such

as biosciences, computer science, democracy, human rights, material sciences, process chemistry and psychology. ÅAU provides a unique environment for research and education in the historical campus areas of Åbo (Turku in Finnish), Vasa (Vaasa) and Jakobstad (Pietarsaari). With its 7,000 students, Åbo Akademi University is international, inspiring and unique.

Fields of education: Humanities, Psychology, Educational Sciences, Theology, Social Sciences, Law, Economics, Health Sciences, Pharmacy, Natural Sciences, Engineering and Information Technology

Master's Degree Programmes in English: Biomedical Imaging, Chemical Engineering, Computer Science, Electronic and Mobile Commerce, Embedded Computing, Human Rights Law, Peace, Mediation and Conflict Research, Software Engineering

Web: www.abo.fi www.abo.fi/master

Hanken School of Economics

Hanken School of Economics is an internationally accredited leading institution of economics and business administration. Founded more than one hundred years ago, we are one of the oldest business schools in the Nordic countries. The share of international students at Hanken is high, contributing to the inter-

national atmosphere of this research-intensive school. At our two campuses, we offer academic degrees on all levels as well as executive education for professionals. Close contacts to the business world give a practical relevance to all our work.

Fields of education: Economics, Business Administration, Business and Management

Master's Degree Programmes in English: Corporate Governance, Economics, Financial Economics, Intellectual Property Law, International Management and Strategy, Marketing, Quantitative Finance

Web: www.hanken.fi

Lappeenranta University of Technology (LUT)

Lappeenranta University of Technology (LUT) was founded in 1969. Ever since, it has brought together technology and economics in a pioneering spirit. Green energy and technology, the creation of sustainable competitiveness and operation as a hub of international Russian relations are the focus areas of the university. 7,000 students, teachers and researchers form its international scientific community.

Demanding, current issues like curbing climate change, availability of clean water and continuous availability of energy are the aims of the technology and business solutions LUT produces. The wellbeing of the world moves us.

In the disciplines of economics and management LUT concentrates in sustainable value creation through fostering innovations and continuous renewal - competitiveness.

Fields of education: Engineering, Business Administration

Master's Degree Programmes in English: Chemical and Process Engineering, Energy Technology, Global Management of Innovation and Technology, Information Technology, International Marketing Management (MIMM), Strategy, Innovation and Sustainability (MSIS), Mechanical Engineering, Strategic Finance (MSF), Technomathematics, Technical Physics

Web: www.lut.fi www.lut.fi/masters

Tampere University of Technology

TAMPERE UNIVERSITY OF TECHNOLOGY

Tampere University of Technology (TUT) conducts scientific research in technology and architecture and provides higher education within these fields. TUT is a national and international pioneer in the development of technology and a sought-after partner in the scientific community and business life. TUT offers its students an opportunity for a broad, cross-disciplinary education. Competent

Masters of Science of Technology and Architecture as well as Doctors of Technology and Philosophy graduate from TUT to work in key branches of industry, especially in the technology industries and in tasks related to the built environment. In terms of student numbers, the largest of study at TUT are information technology and electrical, mechanical, automation and civil engineering.

Fields of education: Engineering, architecture

Master's Degree Programmes in English: Architecture, Biomedical Engineering, Business and Technology, Electrical Engineering, Information Technology, Machine Automation, Materials Science, Science and Bioengineering

Web: www.tut.fi/admissions www.tut.fi

University of Helsinki

The University of Helsinki is the leading versatile research university in Finland continuously ranking in the world's top 100. The high-quality research carried out by the university creates new knowledge for educating diverse specialists in various fields, and makes a solid foundation for social decision-making and successful operations in the business sec-

tor. The university, with 35,000 students and almost 5,000 researchers and teachers, operates on four campuses in Helsinki. Founded in 1640, the University of Helsinki wants to strengthen its position among the world's leading multidisciplinary research universities and to actively promote fair society and the well-being of humanity.

Fields of education: Agriculture and Forestry, Dentistry, Economics, Educational Sciences, Humanities, Law, Medicine, Natural Sciences, Pharmacy, Psychology, Social Sciences, Theology, Veterinary Medicine

Master's Degree Programmes in English: Adult Education and Developmental Work Research, Advanced Spectroscopy in Chemistry, Algorithms and Machine Learning, Atmosphere-Biosphere Studies, Bayesian Statistics and Decision Analysis, Bioinformatics, Biomathematics, Biotechnology, Democracy and Global Transformations, Economics, Economy, State and Society; Environment and Natural Resources, Ethnic Relations, Cultural Diversity and Integration, European Studies, Food of Life, Food Sciences, Forest Sciences and Business, International Business Law and Public International Law, Intercultural Encounters, Media and Global Communication, Modeling Molecules and Nanosystems, Multidisciplinary Studies on Urban Environmental Issues, Networking and Services, Neuroscience, Plant Production Science, Religious Roots of Europe, Research Master's Programme in Social Sciences, Space Sciences, Theological Work in Church and Society, Translational Medicine

Doctoral Degree Programmes in English: All doctoral programmes at the University of Helsinki can be carried out in English.

Web: www.helsinki.fi/university www.helsinki.fi/internationalprogrammes

University of Eastern Finland

The University of Eastern Finland, UEF, is a multidisciplinary research university with an extensive network of foreign partners. With its 15,000 students and a staff of 2,800, the UEF is one of the largest universities in Finland. The university has campuses in the cities of Joensuu, Kuopio and Savonlinna. The UEF has four faculties: the Philosophical Faculty, the Faculty of Science and Forestry, the Faculty of Health Sciences, and the Faculty of Social Sciences and Business Studies.

The university offers instruction in more than 100 major subjects. A range of programmes are taught in English, and the university hosts about 1,200 international students annually. The UEF offers its students an international and lively study environment and state-of-the-art facilities.

Fields of education: Theology, Humanities, Law, Social Sciences, Economics, Psychology, Educational Sciences, Natural Sciences, Agriculture and Forestry, Medicine, Dentistry, Health Sciences, Pharmacy

Master's Degree Programmes in English: Atmosphere-Biosphere Studies, Bio-Economy and Natural Resources Management, Border Crossings: Global and Local Societies in Transition, Clinical Linguistics (Erasmus Mundus), Colour in Informatics and Media Technology (Erasmus Mundus), Computational Biomedical Engineering, Early Language Education for Intercultural Communication, English Language and Culture, Environmental Biology, Environmental Policy and Law, European Forestry (Erasmus Mundus), Forestry and Environmental Engineering (CBU*), General Toxicology and Environmental Health Risk Assessment, Health and Business, Health Promotion in Nursing Science, Information and Communications Technology (CBU*), Information Technology, Innovation Management, Linguistic Sciences, Educational Sciences, Optics in Science and Technology, Photonics, Public Health, Public Health (CBU*), Public Health Nutrition, Research Chemists, Service Management, Transatlantic Forestry Master, Wood Material Science.

* CBU = the Finnish-Russian Cross-Border University

Examples of Doctoral Degree Programmes Taught in English: Business and Management, Educational Technology and Learning Environments, Environmental Health, Law, Molecular Medicine, Photonics, etc.

University of Jyväskylä

The University of Jyväskylä is one of the largest and most popular multidisciplinary universities in Finland. It is an internationally recognized research university which focuses on human and natural sciences. The University hosts approximately 15,000 degree students from all over Finland and from nearly 100 countries around the world. The University's seven faculties offer a total of 80 major subjects and more than 100 minor subjects, including several international Master's

degree programmes, non-degree programmes, summer and winter schools, and a wide variety of language courses.

Jyväskylä is an attractive study destination with its combination of top-quality education and research, modern campus, safe and stable society, unique Nordic nature, and a wide range of sports and cultural activities. In this "little big city" every fourth resident is a student.

Fields of education: Business and Economics, Education, Health Sciences, Humanities, Information Technology, Mathematics, Natural Sciences, Psychology, Social Sciences, Sport Sciences

Master's Degree Programmes in English: Master's Degree Programme in Intercultural Communication, Master's Degree Programme in Service Innovation and Management, Master's Degree Programme in Web Intelligence and Service Engineering, Master's Degree Programme in Education, Master's Degree Programme in Educational Leadership, European Master's in Sport and Exercise Psychology, Master's Degree Programme in Biology of Physical Activity, Master's Degree Programme in Sport Management and Health Promotion, Master's Degree Programme in Sport and Exercise Psychology, Master's Studies in Ecology and Evolutionary Biology, Master's Degree Programme in Nanoscience, Master's Studies in Nuclear and Particle Physics, Master's Degree Programme in Sustainable Management of Inland Aquatic Resources, Master's Degree Programme in Corporate Environmental Management, Master's Degree Programme in International Business and Entrepreneurship, Master's Degree Programme in Development and International Cooperation, Master's Studies in Cultural Policy

Web: www.jyu.fi/studywithus

University of Lapland

Located in the city of Rovaniemi, on the Arctic Circle, the University of Lapland is an international, multidisciplinary university with areas of expertise in Arctic affairs and tourism research. As a research-based higher education institution, our teaching and research facilities offer students and scholars the opportunity to pursue academic excellence at all levels – all the way to doctoral studies and cutting-edge international research. We have internationally recognized

faculties in the fields of law, education, social sciences, and art & design, all offering Master and Doctoral level studies to international applicants. Whether you are interested in service design, northern wellbeing, or juridical standpoints of sustainable development, you can count on our know-how. Add to this our excellent student support services and the cozy atmosphere of our modern campus, and you will discover why the University of Lapland is the perfect choice for studying in the North.

Fields of education: Art and Design, Education, Law, Social Sciences

Master's Degree studies in English: Applied Visual Arts, Audiovisual Media Culture, Clothing Design, Comparative Social Work, EMACIM (European Master in Arts, Culture, and International Management Major: Audiovisual Media Culture or Tourism Research), Global Biopolitics, Graphic Design, Industrial Design, Interior and Textile Design, International and Comparative Law, Media Education

Doctoral Degree Programmes in English: University of Lapland provides doctoral education in all its faculties and degree programmes. In addition University of Lapland offers the following international doctoral programmes: Arctic Doctoral Programme Arktis, SEMKNOW-doctoral programme in semiotic studies and Legal Cultures in Transnational-World (LeCTra).

University of Oulu

The University of Oulu follows the Scandinavian and European university tradition with an excellent reputation in research and teaching: it is ranked among the top international universities in the world. With six faculties, the University of Oulu is one of the largest universities in Finland with a steadily growing number of international students and professors. Our graduates enter the job market as experts of the environment, economics, technology, medicine, education, and culture.

Our various research institutions also offer graduates possibilities for an academic career.

Oulu is a youthful student city with tranquil surroundings and a Scandinavian ambience. Living in Oulu means an easy access to both high technology and wild nature. In Oulu, you have the opportunity to live in a safe and active environment.

Fields of education: Architecture, Business Studies, Dentistry, Economics, Educational Sciences, Engineering, Health Sciences, Humanities, Information Science, Medicine, Natural Sciences

Master's Degree Programmes in English: Architectural Design, Astronomy and Space Physics, Environmental Engineering, Biomedical Engineering, Computer Vision and Signal Processing, Ecology and Population Genetics, Economic Geology, Education and Globalisation, Finance, Financial and Management Accounting, Health and Wellbeing in the Circumpolar Area, International Business Management, Learning, Education and Technology, Magnetic Resonance in Materials, Protein Science and Biotechnology, Software, Systems and Services Development in Global Environment, Synchrotron Radiation Based Science and Accelerator Physics, Wireless Communications Engineering

Web: www.oulu.fi/degree www.oulu.fi/degree/scholarships

University of Tampere

The University of Tampere (UTA) prides itself on multifaceted research and education on society and health.

UTA is influential locally, nationally and internationally. The mobility of students, researchers and teachers makes internationalisation part of the UTA experience, as do the two-year Master's programmes in English. The research conducted at UTA is of high scientific quality.

There are some 15,200 students pursuing degrees at UTA. Every year approximately one thousand Master's degrees and one hundred Doctoral degrees are produced in nine schools: Biomedical Technology, Information Sciences, Management, Education, Language, Translation and Literary Studies, Medicine, Health Sciences, Communication, Media and Theatre, and Social Sciences and Humanities.

Fields of Education: Humanities, Social Sciences, Economics, Psychology, Educational Sciences, Natural Sciences (incl. Information Sciences), Medicine, Health Sciences, Theatre and Dance

Master's Degree Programmes in English: Bioinformatics, Business Competence (next intake 2014), Comparative Social Policy and Welfare, Health Sciences (Public Health or International Health), Human-Technology Interaction, Internat and Game Studies, Media Management, Peace, Mediation and Conflict Research, Russian and European Studies, Software Development, Research and Innovation in Higher Education MARIHE (Erasmus Mundus)

Doctoral Degree Programmes in English: International Postgraduate Programme in Epidemiology (IPPE)

University of Turku

The University of Turku is an international research university and an active academic community of more than 25,000 students and employees. Founded as the first Finnish-language university in the country, the University of Turku has a campus in the historical city centre of Turku, close to the unique nature and archipelago of Southwest Finland.

The aim and ambition at the University of Turku is to provide students with a high-

standard, multidisciplinary education based on the latest research. Our mission is to develop innovative problem-solving skills and out-of-the-box thinking. The personal study plan can be tailored according to students' future ambitions – whether in business or in research. Thanks to the outstanding student services and active student union, you will feel at home from the very beginning of your stay!

Fields of Education: Humanities, Law, Social sciences, Economics, Psychology, Educational Sciences, Natural Sciences, Medicine, Dentistry, Health Sciences

Master's Degree Programmes in English: Physical Sciences (Astronomy track), Asian Studies, Baltic Sea Region Studies, Bioinformatics, Biomedical Imaging, Embedded Computing, Environmental Sciences, European Heritage, Digital Media and the Information Society, Futures Studies, Global Information Technology Management, Global Innovation Management, Information Technology, Law and Information Society, Learning, Learning Environments and Educational Systems

Doctoral Degree Programmes in English: The University of Turku Graduate School (UTUGS) promotes systematic, efficient and high quality doctoral training in all disciplines of the University. Each doctoral candidate has a personal supervisor and the progress of the doctoral dissertation is followed regularly. The aim is to complete the degree in four years when working full time. Together with the Doctoral Programmes the Graduate School provides training on academic topics as well as on transferable skills and career planning. Most of the teaching is in English.

Art universities

From January 2013, Theatre Academy Helsinki will merge with the Finnish Academy of Fine Arts and Sibelius Academy, forming the new University of the Arts Helsinki.

Finnish Academy of Fine Arts

The Finnish Academy of Fine Arts – Kuvataideakatemia in Finnish – is the only university-level institution in Finland specialising in fine arts, and a pioneer in artistic research. The Academy offers Bachelor's and Master's degrees in Fine Arts as well as the degree of Doctor of Fine Arts. Established in 1848, it has a unique place in the Finnish arts scene and boasts an extensive network of international contacts.

The Academy provides broad theoretical and practical training for those aspiring to be practising artists through the following programmes: Painting, Printmaking, Sculpture, and Time and Space Arts (further divided into Moving Image, Photography, and Site and Situation Specific Arts).

Master Degree Programmes in English: Master's programme in art theory

Web: www.kuva.fi

Sibelius Academy

SIBELIUS ACADEMY

Sibelius Academy is the only place where you can study music at university level in Finland. In addition to providing the highest education in the field of music, Sibelius Academy engages in performance and creative art and research. It is committed to fostering and renewing Finland's musical culture and cultural heritage, seeking an active collaboration with

Finnish society and participating in the development of culture. Sibelius Academy has about 1,400 students, with an annual intake of 180 students for Bachelor and Master-level degrees. Sibelius Academy also offers post-graduate degrees with Research, Artistic and Development Study options (Licentiate and Doctor of Music).

Fields of education: Music

Bachelor's Degree Programmes in English: Music (Classical Music Performance, Composition and Music Theory, Conducting, Folk Music, Jazz Music, Music Technology)

Master's Degree Programmes in English: Music (Classical Music Performance, Composition and Music Theory, Conducting, Folk Music, Jazz Music, Instrumental and Vocal Studies in Classical Music, Music Technology), Arts Management, and Nordic Master in Global Music (GLOMAS)

Doctoral-level Degree Programmes in English: Licentiate of Music, Doctor of Music (Research, Artistic and Development Study programmes)

Web: <http://www.siba.fi>

Theatre Academy Helsinki

Theatre Academy Helsinki provides the highest education in theatre and dance in Finland, training actors (in Finnish and Swedish), directors, dramaturges, lighting and sound designers, professionals in dance (choreographers and dancers), performance artists, and dance and theatre pedagogues.

The results of the education are performed on the stages of the Academy's training theatre. The Academy also works within research and development in the fields of theatre, dance and performance.

Fields of education: Theatre, Drama, Dance

Master's Degree Programmes in English: Choreography (MA), Dance (MA), Dance Pedagogy (MA), Live Art and Performance Studies (MA), Theatre Pedagogy (MA)

Doctoral Degree Programmes in English: Doctoral Studies (DA)

Universities of
applied sciences

Study in Finland 2012–2013

Foreword

Finnish universities of applied sciences (also known as polytechnics) provide professional higher education. They are multi-field institutions with intensive working-life contacts and a regional development focus. They are financed mainly by the government and local authorities.

There are 25 universities of applied sciences in Finland operating under the Ministry of Education and Culture. [page 3](#)

Universities of applied sciences confer Bachelor's and Master's degrees. A Bachelor's degree takes 3.5–4 years to complete and encompasses 210–240 ECTS credits, while Master's degrees at the universities of applied sciences hold 60–80 ECTS credits and build on a Bachelor's degree and three years of work experience. [page 26](#)
Universities

Universities of applied sciences provide education and training in the following fields:

- Humanities and education
- Culture
- Social sciences, business and administration
- Natural resources and the environment
- Technology, communication and transport
- Natural sciences
- Social services, health and sport
- Tourism, catering and domestic services

Universities of applied sciences offer close to 90 Bachelor's degree programmes [page 20](#) and over 30 Master's degree programmes [page 22](#) in English.

Bachelor-level degree education is free, also for international students.

On the Master's level, institutions may charge tuition fees from non-EU/EEA nationals in certain degree programmes in English. Students who are enrolled in these Master's programmes can apply for institutional scholarships.

Finnish higher education institutions select their students independently.

To apply to a Bachelor's degree programme at a university of applied sciences, you will need to have completed upper secondary education or equivalent, have a good command of English (an acceptable TOEFL/IELTS score) and you may have to take an entrance examination, either in Finland or, in some cases, in your own country.

Submit your application through the joint application system at www.admissions.fi. You can apply for up to four different Bachelor's degree programmes conducted in English with a single application.

Åland University of Applied Sciences

Högskolan på Åland

The uniquely located island institution offers seven degree programmes with a total of 500 students. We take pride in our close co-operation and interaction with working life and society.

Åland UAS offers education and training in diverse fields as business administration, navigation, engineering (marine, electrical and IT), nursing and hospitality management.

Courses are generally taught in Swedish though exchange students from Nordic and European partner schools are offered courses in English. In order to provide students with international experiences and contacts, the university co-operates with a range of foreign institutions. Åland UAS is an active partner in networking activities and communication across national boundaries.

Web: www.ha.ax

Arcada University of Applied Sciences

Arcada is a university of applied sciences in Helsinki, the capital of Finland. We offer high-quality education and further education for our 2,700 students. We believe in close contacts with the workplace, co-operate with around 90 higher education institutions and universities throughout the world, and also conduct practical research that is socially relevant. This is why a degree from Arcada in

business administration, tourism, media, technology, sports or social welfare and health care makes a difference and is appreciated by employers. The languages of instruction at Arcada are Swedish and English. Our chosen focus areas are sustainable materials and energy systems, digital services, culture and media production, wellbeing at work and patient safety.

Fields of education: Business Administration, Tourism, Media, Technology, Sports, Social Welfare, Health Care

Bachelor's Degree Programmes in English: International Business, Plastics Technology, Nursing

Master's Degree Programmes in English: Media Management, International Business Management

Web: www.arcada.fi/en

Centria University of Applied Sciences

Centria University of Applied Sciences is located in western Finland, in northern Europe. Centria is a multidisciplinary, dynamic and international higher education institution, which offers students and staff an environment that is innovative, caring and multicultural.

Our education is versatile with degree programmes ranging from Chemical Engineering and Business Management to Nursing and Performing Arts. A strong focus on entrepreneurship and excellent connections with

working life provide a solid basis for combining theoretical knowledge with career skills in a meaningful way.

Centria has around 3,300 students in six fields and 21 degree programmes with an annual intake of 622 students. The language of instruction is Finnish in most degree programmes but we also offer six international degree programmes taught in English. Centria has campuses in Kokkola, Pietarsaari and Ylivieska.

Fields of Education: Engineering, Business and Administration, Tourism, Health Care and Social Services, Culture, Humanities and Education

Degree Programmes in English: Chemistry and Technology, Industrial Management, Information Technology, Business Management, Tourism, Nursing, International Business Management

Web: www.centria.fi

Diaconia University of Applied Sciences (Diak)

Diaconia University of Applied Sciences (Diak) trains and educates people for meaningful jobs in the social and health sector, in parishes and in various organisations. Diak also educates interpreters, providing them with skills required in teaching and translating jobs. Part of the education is given in working-life learning environments,

which combines research, development and learning. Diak is a strong international player, promoting global responsibility and equal opportunities.

Fields of education: Social Services, Nursing and Public Health, Diaconia, Youth Work, Community Interpreting, Sign Language Interpreting

Bachelor's Degree Programmes in English: Social Services (Focus on Community Development Work or Focus on Diaconal Youth & Community Development Work)

Web: <http://www.diak.fi/en/Pages/default.aspx>

HAAGA-HELIA University of Applied Sciences

At HAAGA-HELIA you can become an expert in business, travel, journalism, management assistance, information technology, sports and leisure management or hotel and restaurant management. We offer Bachelor's degrees in all these fields, complemented by Master's degrees. Degrees can be complet-

ed in Finnish or English through day programmes, or in Finnish or English through evening programmes. HAAGA-HELIA has extensive international networks, cooperating with universities abroad and offering plenty of opportunities for student exchange.

Fields of education: Social Services, Nursing and Public Health, Diaconia, Youth Work, Community Interpreting, Sign Language Interpreting

Bachelor's Degree Programmes in English: Multilingual Management Assistants, Business Information Technology, Experience and Wellness Management, Hotel, Restaurant and Tourism Management, International Business (Pasila campus), International Business (Porvoo campus), Sport and Leisure Management, Tourism

Master's Degree Programmes in English: Communication Management, Information Systems Management, International Business Management, Sport Development and Management (next intake 2013), Tourism

Web: www.haaga-helia.fi

HAMK University of Applied Sciences

HAMK University of Applied Sciences, with its seven campuses, has around 8,000 students from around 60 countries, and 25 Bachelor-level and 7 Master-level degree programmes. We offer world-class education, research and development, and strong internationalisation with modern learning facilities and methods. Our strategic alliance with Lahti and Laurea Universities of Applied Sciences allows our

students to choose courses from a common provision of courses throughout the year. All our degree programmes are delivered in Finnish except for four Bachelor-level programmes and one Master-level programme delivered entirely in English. Each field of education also offers courses in English for international exchange students.

Fields of education: Culture, Natural Resources and the Environment, Natural Sciences, Social Sciences, Business and Administration, Social Services, Health and Sport; Technology, Communication and Transport

Bachelor's Degree Programmes in English: Automation Engineering, Construction Engineering, International Business, Mechanical Engineering and Production Technology

Master's Degree Programmes in English: Business Management and Entrepreneurship

Web: www.hamk.fi/English

Helsinki Metropolia University of Applied Sciences

Do you enjoy creating and innovating with others for the wellbeing of the community and society at large? Then Metropolia is your partner. In Metropolia we are committed to openness and high quality. Our community is passionate about expertise and we systematically invest in high-quality teaching and co-operation in R&D and innovation.

Metropolia is a multidisciplinary international university of applied sciences, the largest of its kind in Finland. Metropolia's strengths include our close cooperation with the world of work, our far-reaching involvement in society, and our ability to renew ourselves. Our cooperation networks extend to all continents and our international R&D work is gaining strength.

Metropolia has more than 60 degree programmes, 15 of which are taught in English.

Fields of education: Business, Culture, Health Care and Social Services, Technology

Bachelor's Degree Programmes: Civil Engineering, Electronics, Environmental Engineering, European Business Administration, European Management, Information Technology, International Business and Logistics, Media Engineering, Nursing, Social Services

Master's Degree Programmes: Business Informatics, Emergency and Critical Care Nursing (Erasmus Mundus), Health Business Management, Industrial Management, Information Technology

Web: www.metropolia.fi/apply/

HUMAK University of Applied Sciences

humak Humanistinen ammattikorkeakoulu
University of Applied Sciences

HUMAK University of Applied Sciences operates through a nationwide network. It is the leading educator and expert in the fields of humanities, pedagogy and cultural management in Finland.

Our activities are based on human interaction, tolerance and respect for others.

Building connections, acting as a mediator, strengthening and developing a sense of community, creating innovations based on

the needs of citizens are among the key duties of HUMAK. We are actively engaged in NGO and youth work, cultural management, entrepreneurship in the creative industries, as well as the sign language interpreting industry by developing new and existing practices.

HUMAK participates in all key European education and training programmes. In addition, we currently offer two English-language programmes leading to a Master of Humanities degree.

Fields of education: Humanities

Web: <http://www.humak.fi/en>

JAMK University of Applied Sciences

JAMK is an attractive, innovative and internationally-oriented higher education institution with a strong role in developing the Jyväskylä region and Central Finland. There are 8,000 students and 760 staff members at JAMK. We offer first and second cycle degree education, open studies, continuing education, vocational teacher education and research, development and innovation activities. We maintain a close contact with enterprises

and organisations nationally and internationally.

We offer Bachelor's degrees, Master's degrees and vocational teacher education in English. JAMK graduates have excellent know-how, the right kind of attitude and are able to put their professional skills and entrepreneurship to good use. Being a professional offers more choices.

Fields of education: Humanities and Education, Culture, Social Sciences, Business and Administration, Natural Resources and the Environment, Technology, Communication and Transport, Natural Sciences, Social Services, Health and Sport, and Tourism, Catering and Domestic Services

Bachelor's Degree Programmes in English: International Business, Logistics Engineering, Nursing

Master's Degree Programmes in English: Information Technology, International Business Management, Paper Machine Technology

Other Education taught in English: Vocational Teacher Education

Web: www.jamk.fi www.jamk.fi/english/

Kajaani University of Applied Science

At Kajaani UAS you can enjoy a cozy study atmosphere in our close-to-nature campus area, located not far from the town center. On our compact campus you can find all student services comfortably close to each other as well as some of the student accommodation. Our multicultural study groups are small, which helps in building good relationships with fellow students and lecturers. We place special emphasis on providing study counseling to enable students to succeed in their

studies. Our lecturers have an individual approach with each student, helping them to identify and develop their personal area of expertise. Kajaani UAS offers a variety of exchange opportunities and possibilities to participate in hands-on business projects. The town of Kajaani is big enough to offer all necessary services but yet is small enough to feel safe. Four distinct seasons provide a variety of settings ideal for a wide range of interesting experiences.

Fields of education: Social Sciences, Business and Administration, Natural Sciences, Technology, Communication and Transport, Social Services, Health and Sports; Tourism, Catering and Domestic Services

Bachelor's Degree Programmes in English: International Business, Sports and Leisure Management

Web: www.kajak.fi

Karelia University of Applied Sciences

Karelia University of Applied Sciences offers 18 Bachelor's degree programmes and 3 Master's degree programmes. The innovative learning environment, quality teaching and cooperation with working life make sure that your degree is a firm foundation for your future career.

Karelia UAS engages in active research and development. Co-operation extends from regional business life to international networks.

In terms of regional development impact, Karelia UAS is one of the leading Finnish universities of applied sciences.

Karelia operates in 4 centres in Joensuu with 4,000 students. The centres are learning environments that enable studies across the boundaries of different degree programmes. Joensuu is the student capital of eastern Finland. Here you can enjoy a relaxed and social lifestyle.

Fields of education: Social Sciences, Business and Administration; Natural Sciences; Culture; Natural Resources and the Environment; Tourism, Catering and Domestic Services; Social Services, Health and Sport; Technology, Communication and Transport

Bachelor's Degree Programme in English: International Business

Web: <http://www.karelia.fi/>

Kemi-Tornio University of Applied Sciences

Kemi-Tornio University of Applied Sciences is a multidisciplinary institution providing higher education and research services in Northern Finland and Lapland. We train and educate cooperative experts with high professional skills for international working environments. Students get both theoretical knowledge and practical training for a successful career. The study environment is enhanced

by 300 students from Europe, Asia and Africa studying in the international degree programmes. We have a strong network of partners in Finland, and the worldwide network extends to all continents with more than 60 international partners. We are situated on the doorstep to Finnish Lapland, close to the border of Sweden. Our educational units are located in two towns, Kemi and Tornio.

Fields of education: Business and Administration, Information Communication Technology, Culture, Technology and Engineering, Health Care and Social Services

Bachelor's Degree Programmes in English: Nursing, Business Information Technology, Business Management, Social Services

Master's Degree Programmes in English: International Business Management

Web: www.token.fi

Kymenlaakso University of Applied Sciences

Welcome to study at the Kymenlaakso University of Applied Sciences! We are an inspiring, multidisciplinary school with many international activities. We focus on Design, Health Promotion and International Business. Employment prospects for our graduates are good. The campuses are located in Kotka and Kouvola, only about 130 km from Helsinki.

Kymenlaakso UAS is a higher education institution in Southeast Finland that provides high-quality education, fosters competence and conducts applied research. We have around 100 partner institutions in more than 20 countries around the world and we receive around 120 international exchange students annually. We also have over 200 international degree students, who make a distinct contribution to our multicultural atmosphere.

Fields of education: Culture, Social Services, Health and Sports, Technology and Transport; Social Sciences, Business and Administration

Bachelor's Degree Programmes in English: Design, and International Business

Master's Degree Programmes in English: Design, Health Promotion, International Business Management

Web: www.kyamk.fi

Lahti University of Applied Sciences

LAHDEN AMMATTIKORKEAKOULU
Lahti University of Applied Sciences

Lahti University of Applied Sciences (LUAS) is a multidisciplinary higher education institution. Our Bachelor's and Master's degree programmes have been designed to respond to the ever changing needs of businesses and industries. We work actively with local companies and international partners to improve our

quality of education, enhance the learning experience and share expertise. Located by the beautiful nature and close to the buzz of the capital city Helsinki, Lahti offers a stimulating and safe studying environment for both Finnish and international students. Make the most of your studies, join us in Lahti!

Fields of education: Business, Technology and Engineering, Social and Health Care, Design and Communication, Fine Arts, Music and Drama, Tourism and Hospitality Management

Bachelor's Degree Programmes in English: Business Information Technology, International Business and Nursing

Master's Degree Programmes in English: Environmental Technology and International Business Management

Web: www.lamk.fi/english www.studyinlahti.fi

Laurea University of Applied Sciences

Laurea produces new competences in the field of service innovations and carries out professionally orientated education, regional development and R&D activities. Laurea fosters modern teaching and learning methods and follows the unique Learning by Developing model: students' learning is based on real-life projects and development work. Laurea has an international atmosphere among the students

and staff, hosting plenty of international students and contacts around the world.

Laurea has approximately 8 000 students, of which 1 200 study in the adult education programmes. Laurea operates in the Greater Helsinki Region in seven units close to good transport connections.

Fields of education: Social Sciences, Business and Administration, Natural Sciences, Social Services, Health and Sports; Tourism, Catering and Domestic Services

Bachelor's Degree Programmes in English: Business Information Technology, Business Management, Facility Management, Nursing, Security Management

Master's Degree Programmes in English: Health Promotion, Service Innovation and Design

Mikkeli University of Applied Sciences

It is our pleasure to invite you to study in the stimulating environment of Mikkeli University of Applied Sciences (Mikkeli UAS). Our mission is to provide the highest professional expertise as well as applied research and development work for the needs of working life. We are committed to academic excellence and place special emphasis on international awareness and the development of entrepreneurial skills.

Mikkeli UAS lies at the heart of the beautiful Finnish Lake District in South Savo region. Currently we host over 200 international students from more than 30 countries. In addition, several lecturers and experts from partner institutions visit Mikkeli each year, especially during the International Summer Term organised annually.

Saimaa University of Applied Sciences

The Saimaa University of Applied Sciences is an institution of higher education in South-east Finland. Our units are located in the towns of Lappeenranta and Imatra, close to the Russian border and by Lake Saimaa, the largest lake in Finland. In Lappeenranta, Saimaa UAS operates at the Skinnarila Campus, located next to the Lappeenranta University of Technology. The two universities constitute a multidisciplinary community of nearly 8,000 students.

The Saimaa University of Applied Sciences offers degrees in five fields: Technology, Health Care and Social Services, Business Administration, Tourism and Hospitality and Fine Arts. Education is given in English in four degree programmes. Of our 3,000 students, 300 are international degree students. Interaction between students and teachers is open and friendly.

Fields of education: Technology, Health Care and Social Services, Business Administration, Tourism and Hospitality, Fine Arts

Bachelor's Degree Programmes in English: Hotel, Restaurant and Tourism Management, International Business, Mechanical Engineering and Production Technology

Master's Degree Programmes in English: International Business Management

Web: www.saimia.fi

Satakunta University of Applied Sciences

Satakunta University of Applied Sciences (SAMK) is located on the west coast of Finland, in the Satakunta region. There are about 6,300 students in total and more than 250 international students studying on our campuses every year. SAMK is a multidisciplinary higher education institution, which offers both Bachelor's and Master's degrees in the fields of construction and energy, health, ICT, logistics and maritime technology, service business operations and welfare.

We have campuses in the biggest cities in the region. Pori, Rauma, Kankaanpää and Huittinen offer spacious and safe living conditions, a lot of green nature and excellent opportunities for leisure activities. The cities are big enough to offer all the necessary services but also small enough to have a cozy and friendly atmosphere.

Fields of education: Arts and Design, Business, Communication and Media Studies, Computer Science and Information Technology, Engineering and Technology, Health Care and Social Sciences, and Tourism and Catering

Bachelor's Degree Programmes in English: Environmental Engineering, Innovative Business Services, International Business and Marketing Logistics, Physiotherapy

Master's Degree Programmes in English: Business Management and Entrepreneurship

Web: www.samk.fi/english

Savonia University of Applied Sciences

Savonia UAS creates and develops future know-how, building the competences of working life and those of economic and cultural life. It fosters the competitiveness of the society through education, research and development projects. The starting point of our education and training are the needs of working life. The co-operation is based on

open interaction, sharing know-how and interactive learning. Savonia promotes its know-how and expertise by co-operating with companies, economic life, educational institutions, universities and international networks. Our campuses are located in Eastern Finland.

Fields of education: Culture and Arts, Business, Natural Resources, Tourism and Hospitality, Engineering, Social and Health Care

Bachelor's Degree Programmes in English: Degree Programme in International Business, Degree Programme in Industrial Management

Master's Degree Programmes in English: Degree Programme in Industrial Management

Web: www.savonia.fi

Seinäjoki University of Applied Sciences

Seinäjoki University of Applied Sciences (Seinäjoki UAS) is an internationally audited multidisciplinary institution of higher education of about 4,800 students. It is a significant operator in research, development and innovation services. Seinäjoki UAS is located in the region of South Ostrobothnia in West Finland and offers a safe and inspiring living environment for students.

We welcome international degree students who want to become experts especially in the

fields of International Business and Nursing. We also welcome exchange students in all our five faculties. Students in the fields of business and technology can take part in a double degree programme. Yearly Seinäjoki UAS has around 200 international degree students and 250 international exchange students from 180 partner universities abroad.

Welcome to study in the dynamic and international atmosphere of Seinäjoki University of Applied Sciences!
