STUDY ABROAD AT KOREA UNIVERSITY

A Message from the President

Dear International Students,

There has never been a better time than the present to be an international student, indeed with so many inspiring and challenging academic programs at universities all over the world to choose from, we know there are many options available to you. For this reason we are very pleased you are considering studying in Korea and at Korea University (KU).

Currently, KU is recognized as the top university in the nation in the area of international education. We have made a conscious effort to provide our students with a top-quality education that exposes them to different ideas and cultures from around the world. This plan also includes an important component of sharing the best of Korean culture with international students who come and study with us here in Seoul.

Over the past five years we have seen a dramatic increase in both the number of courses offered in English (currently over 40%) and in the number of international students that have selected Korea University as their destination of choice for a study abroad experience. Last semester alone (Fall 2011) we welcomed over 8,000 students to our campus from all parts of the globe. This is certainly a strong testament to the quality of the academic experience offered at KU and to the warm hospitality and inviting environment we have created on campus.

We realize that studying in a foreign country presents its own challenges and difficulties. I myself was once an international student in Germany in the 1980s so I know firsthand how demanding --- but ultimately rewarding --- the experience can be. For this reason you will find the information in this booklet very helpful and once you arrive on campus, the staff at Korea University Office of International Affairs will be an invaluable resource to assist you in all your needs. Also, we encourage you to partner-up with a KUBA buddy (Korea University Buddy Assistant) who will be very glad to ensure your adjustment to life in Korea, and at KU, is easy and enjoyable.

As you review this booklet and consider the course and program offerings, remember that we will do our best to ensure your time with us is academically stimulating and personally rewarding. Also, we look forward to receiving your own contributions to the KU community so that our program continues to grow and improve.

We look forward to welcoming you!

Byoung-Chul Kim

Byoung-Chul Kim
President

Korea University

Korea University, founded in 1905, is widely acknowledged as one of the country's oldest, largest and top-ranked universities in Korea. Its reputation for quality is based on excellence in teaching, research and service to Korean society. Eminent faculty, outstanding students and internationally recognized research programs all contribute to Korea University's academic fame. As a major comprehensive university, KU offers a rich variety of courses in liberal arts and sciences as well as in all professional fields, including law, medicine and business administration.

KU campus covers over 182 acres and its home to more than 35,000 students from all over the nation and the world. With its stately stone architecture sprawling lawns, seasonal trees and natural flora, KU is known to be one of the most beautiful campuses in Korea. The students of KU represent Korea's dream as they are among the nation's brightest and most ambitious. KU is nationally recognized for its commitment to teaching and academic excellence. The university's academic breadth is extensive with its 85 departments in 22 colleges and divisions, and 23 graduate schools and it has over 1,600 full-time faculty members with over 95% of them holding Ph.D. or equivalent qualification in their field. KU has particularly strong Humanities and Asian Studies Departments along with the Graduate School of International Studies (GSIS). KU is also renowned for its professional schools of Law, Medicine and Business Administration. In research, KU is an internationally recognized leader with over 100 research centers, including the East Asiatic Research Centre and the Korean Cultural Research Centre. Furthermore, Korea University Business School (KUBS) is the only and the first business school in the country to have acquired both European Quality Improvement System (EQUIS) accreditation, in combination with the accreditation granted by the Association to Advance Collegiate Schools of Business (AACSB). Unlike many universities in Korea, KU prides itself not only in being a progressive and globally conscious institution but one that plays a role in preserving and developing Korea's unique culture.

Why Korea University?

Exciting Social Life

Dynamic social life with hundreds of student societies and activities available campus-wide

Dynamic Seoul

Beautifully resourced and conveniently located main campus in the heart of metropolitan Seoul

Inbound Global Program

KU's International Summer Campus attracting over 1,400 students (2011) by providing over 120 courses

1,400

Multicultural Students

Multicultural student population with over 8,300 international students annually enrolled

8,300

Courses in English

Over 40% of courses are delivered in the English language with plans to increase to 50% by 2015

40%

Ranked Best in Asia

One of the few private universities in Asia to be ranked among the top 200 universities by The QS World University Rankings 2011.

TOP 200

Dual International Accreditation

Korea University Business School is the first and only business school in the country to have acquired both European Quality Improvement System (EQUIS) accreditation, and the accreditation granted by the Association to Advance Collegiate Schools of Business (AACSB)

Scholarships

Over USD2,500,000 available in scholarships for international students each year

USD2,500,000

Prominent Academics

Over 1,600 full-time faculty professors with over 96% of them holding a Ph.D. or equivalent qualifications in their field

1,600

Professional Schools

KU has particularly strong humanities and Asian studies departments along with the graduate school of international studies (GSIS). KU is also renowned for its professional schools of law, medicine and business administration

Research Centers

Internationally recognized leader with over 100 research centers, including the East Asiatic Research Centre and the Korean Cultural Research Center

Alumni

Over 20% of Korean politicians and CEOs are alumni of Korea University

Exchange & Study Abroad at Korea University

KU has established extensive links with many universities internationally through its student exchange program (SEP), which was developed as part of its internationalization process. This program now involves almost two thousand students to and from countries in Asia-Pacific, Europe, North and South America.

The benefits of KU exchange students vary according to the terms and conditions of the exchange agreement KU has concluded with each institution. Based on the principle of reciprocal exchange of benefits, our standard exchange agreements regulate student tuition fees waiver at host universities; however, students are responsible for room and board. Exchange students are also responsible for their own travel, medical insurance and other personal expenses.

International students whose home institutions do not have an exchange agreement with KU nor has links with ISEP can also apply to study at KU through the visiting student program (VSP).

Period of Study

International students have a choice of three study periods:

- Full academic year: March ~ December
- Spring semester: March ~ June
- Fall semester: September ~ December

Credit Transfer

Academic credits earned through this program can be transferred under the exchange regulations and used to satisfy degree requirements at home institutions. Visiting students must check with their home institution regarding the credit acceptability of chosen courses. For each student who has completed his/her courses successfully, a certified transcript of academic performance will be sent to the student's home institution upon request.

Assessment

Each student's academic performance is graded according to the following criteria: exams, assignment, attendance, and class participation. Students usually take regular examinations twice per semester (mid-term and final). They may also be given additional assignments by their professors. A minimum 70% of attendance is required in order for a student to earn a passing grade. A student's performance is normally graded on a 100 point scale.

100-95	A+
94-90	A
89-85	B+
84-80	B
79-75	C+
74-70	C
69-65	D+
64-60	D
59-	F (Fail)

Course Offerings

KU offers many courses in English in various disciplines at the undergraduate and postgraduate levels, and the number is increasing every year. Please note that it is not guaranteed that the same list of courses is offered to students every year but normally there are only minor changes. It is important that you ensure that your intended courses will be offered in your registered semester. <http://oia.korea.ac.kr> > Campus Life > Reference Room

Korean Language & Culture Center

The Korean Language & Culture Center (KLCC) was established with the goal of teaching and promoting Korean language and culture throughout the world. The total number of international students who have studied and learned the Korean language, history, and cultures since 1986 has reached over 50,000 in 2011 with over 4,500 students participating in this program annually.

The KLCC offers a systematic and integrated curriculum, excellent textbooks and teaching materials, and most importantly, distinguished faculty members and a supportive staff who are always willing to help you both in and out of the classroom. For more detailed information about the programs that KLCC offers, please visit the website at <http://kola.korea.ac.kr/klcc> or send an email to korean@korea.ac.kr

Other Study Programs

Outside the Student Exchange Program (SEP) and Visiting Student Program (VSP), there are two other programs that students can apply to study at KU. They are the International Summer Campus (ISC) which is also organized by the Office of International Affairs and the Korean language program which is offered by the Korean Language & Culture Center (KLCC). The following is a brief introduction to ISC and KLCC. For more detailed information, you may visit the websites and contact the ISC and KLCC directly.

International Summer Campus

The Office of International Affairs at KU offers an annual six-week, International Summer Campus program. The program offers:

- Over 120 fascinating and challenging courses taught by distinguished faculty from prestigious universities from around the world
- Transferable credit
- Courses covering a wide range of subjects pertaining to international issues, with a particular emphasis on the East Asian region, including its history, culture, society, politics, economics, law, business management, science and art/design
- Newly constructed international residence (CJ I-House) for international students and faculty members
- Korean cultural workshops, field trips, and special lecture conducted by notable experts
- Alumni benefits after attending the ISC program twice
- A student learning center providing opportunities to participate in discussions about approaches to writing assignments and essays with a one-on-one tutor

For more detailed information, please visit the ISC website at <http://isc.korea.ac.kr> and direct all enquiries to Mr. Jeff Donghyun Jang, Program Manager, International Summer Campus.
Email: isc@korea.ac.kr Tel: +82-2-3292-1154/1156

Living in Seoul

With a heritage of centuries and the cutting-edge technology of the IT industry, Seoul is a city of contrasts where the old and new exist in harmony. The city is surrounded by beautiful mountains and has a river that runs through it which is quite rare for such big city and the nearest seaside is within easy reach of just under an hour.

KU is located in the capital city of Seoul that boasts a population of over 12 million. Seoul is a bustling center of culture, finance, politics, and entertainment. As a fast growing global city, the city also offers support to non-Korean nationals through global centers to make their lives more convenient and comfortable during their stay in the city.

Life at Korea University

There is more to life than just studying and that is why we want to give you every opportunity to socialize and meet your fellow students. To be a successful student, you need to balance academic goals with personal desires, and we want you to be part of the KU community, so take part in student societies and tell others about yourself!

Student Activities

There are hundreds of societies and activities available campus-wide that are open to all KU students and you will also find that there is a never-ending list of events held throughout the year at KU. For more information about the student societies and activities, please contact the International One-Stop Service Center at studyabroad@korea.ac.kr or call +82 2 3290 5152-3

Accommodations

There are two main student residences for international students, Anam Hall 2 dormitory, and CJ International House, and a brand-new dormitory, Frontier Hall is also open. Students will apply for housing once they are admitted to KU and the application must be completed online at <http://oia.korea.ac.kr> > Campus Life > Accommodation. These facilities are for limited numbers of international students, therefore the rooms are given priority on a first-come, first-serve basis so remember to reserve as early as possible. Students may self-cater, or dine on campus in cafes or nearby restaurants. Should one miss the application deadline for accommodation, or have not been offered a place for on-campus housing, the Office of International Affairs can still provide assistance in finding the appropriate housing near the campus within a walking distance. The Center for International Scholars & Students at the office of International Affairs at KU provides guidance and a full range of services to support students' needs. For information about other types of off-campus accommodations, please refer to the International Student Handbook which can be downloaded from <http://oia.korea.ac.kr> > Campus Life > Reference Room

Help & Advice

The staff at the Center for International Students & Scholars have had experiences in dealing with international students from all over the world, and they understand the challenges you may face being away from home. If you have any problems or feel lonely or depressed, there are various people you may talk to. If you have any questions or concerns, please do not hesitate to contact staff members in the Center for International Students & Scholars at studyabroad@korea.ac.kr.

Student Health Insurance

It is mandatory for all international students to submit a certificate of private health insurance to the Office of International Affairs to cover the cost of all necessary medical care during the period of study before the start of their study at KU.

CJ International House

Global KU Scholarships

In celebration of its centennial in 2005, Korea University established Global KU Scholarships. Global KU Scholarships aim to encourage future global leaders to study at KU. Only undergraduate exchange and visiting students at KU are eligible to apply for Global KU Scholarships.

Types

- **Admission Scholarship:** up to KRW750,000 per month for the first semester (4 months)
- **Travel Scholarship:** designed to assist students meet basic travel costs, one-time payment of up to a maximum of KRW1,000,000 according to travel distance and currency rate
- **Merit Scholarship:** awarded on the basis of academic merit for the first semester, KRW300,000 per month for a second semester (4 months), therefore applicable to exchange/visiting students who participated in one year program only

Conditions

- Admission and KU Travel Scholarships are awarded on the basis of academic merit at the applicant's home institution.
- Faculty/Institution/National quotas may apply.
- Only those who extend the duration of their study at KU from one semester to two semesters are eligible to apply for 'Merit Scholarships' at the time of approval for extension.
- Funding for the scholarship is subject to availability.
*USD 1 = KRW 1,000

Eligibility

- Be a currently enrolled undergraduate student at home university
- Have an overall weighted average of at least 75% at their home institutions
- Have a fluent command of either English or Korean

Required Documents

- A completed application form
- One passport-sized photograph
- One academic reference
- Statement of purpose (maximum 500 words)

Important Notice

- All documents must be provided in English. Please attach translations in English if the documents are in any other language
- Documents submitted with the application will not be returned to the applicant
- Apply for either Admission or KU Travel Scholarships at the time of application submission

Application Deadlines

- Spring semester (March): January 30
- Fall semester (September): July 30

Admission & Application

Eligibility

Student Exchange Program (SEP) & Visiting Student Program (VSP)

- Must be a currently enrolled student at one's home university
- Must be nominated by KU's exchange partner institution (SEP only)
- Undertaken a minimum of two semesters of university level study (by the time you start at KU)
- A cumulative GPA of 2.5 or above on a 4.0 scale; or its equivalent

Application Submission

All students for SEP and VSP must submit the following documents:

- A completed application form
- Original academic transcript of records
- Statement of purpose
- A certified copy of passport (photograph page)
- Two passport-sized photographs of yourself (taken within six months)
- Curriculum vitae (if applicable)
- One academic reference (VSP only)
- The application fee of USD 50 (non-refundable) payable by cheque to Korea University (VSP only)

Application Deadlines

- Spring semester (March): November 30
- Fall semester (September): May 30

The Assessment Process

Once we have received your completed application then it will be assessed for eligibility. In most cases the assessment process takes approximately two weeks. If you are made an offer of study then further information package will be sent to you regarding orientation, accommodation and enrollment.

All applications must be sent to

Office of International Affairs, Korea University

Dongwon Global Leadership Hall, Anam-Dong, Seongbuk-Gu, Seoul, Korea 136-701

Tel: (82 2) 3290-2965~66

Fax: (82 2) 922-5820

Email: studyabroad@korea.ac.kr

Website: <http://oia.korea.ac.kr>

Please note that all students come through the Student Exchange and Visiting Programs run by the Office of International Affairs are to study at Anam Campus which is the KU's main campus.

List of KU Colleges

• College of Law

As one of Korea's most prestigious law schools, the College is committed to providing students with a balanced curriculum of studies. The College does not teach law so that students can pass an examination; instead, it offers them a wide range of studies that are essential to their careers and their society—such as social law, labor law, international law, the philosophy of law, and comparative law.

• College of Business

Korea University Business School (KUBS) has spearheaded the development and innovation of management education in Korea and thus, has become undisputedly the country's best business school. KUBS graduates now account for the largest number of the nation's top business executives and certified public accountants (CPAs), a hallmark of the school's excellent education in management theories and practices.

• College of Liberal Arts

The first aim of the College is to groom leaders who can function and thrive in this era of globalization and secondly to offer our students the most complete and uplifting humanities curriculum possible. The college receives support for research from the Institute for Korean Culture, Institute for Asian Studies, Korean Institute for Research in the Behavioral Sciences and Research Institute for Language and Information. In addition, the college has formed exchange partnerships with Moscow State University, St. Petersburg State University, Columbia University, Waseda University, Peking University, and universities in Mexico, Peru, and Chile.

• College of Life Sciences & Biotechnology

The College plans to foster future-oriented, high-quality human resources and become a world's top 50-level college and graduate school. To further this goal, the College carries out exchange programs with such esteemed institutions as the MIT, the NIH, University of California, Davis, and the NAIST. We also offer a joint MA program with George Mason University in Washington, D.C. and network with many Korean biotechnology companies. Also, to establish an international specialist's program, the College has accumulated a KRW 202 billion fund to open a research institute and establish an international specialist's program.

• College of Political Sciences & Economics

The College of Political Science & Economics has 70 professors, four departments central to social sciences (Department of Political Science and International Relations, Department of Economics, Department of Statistics and Department of Public Administration), and interdisciplinary programs including the PEL (Politics, Economics, and Law) course, which is a preliminary law school program, Law and Administration, and Financial Engineering. Affiliated research facilities include the Institute of Economic Research, Asia Research Center, Institute for Peace Studies, Ilmin International Relations Institute, Institute of Statistics, and Institute of Governmental Studies.

• College of Sciences

The research grants of the College amounts to KRW 7.9 billion (KRW 0.125 billion per professor), and the faculty had nearly 300 papers published in highly-respected scholarly journals. Also, the facilities, curriculum, professors, and students are among the best that can be found anywhere.

• College of Engineering

The most distinctive feature of the College of Engineering is rapid growth. The College has produced more than 16,000 outstanding industrial human resources enabling South Korea to enter post-industrial society. Also, the College is seizing the initiative in the new age of engineering education through this fusion of industria-academic collaboration and more traditional engineering studies. Courses on offer are Materials Science and Engineering, Electrical Engineering, Information and Management Engineering, Chemical and Biological Engineering, Civil, Environmental and Architectural Engineering, Architecture, Mechanical Engineering.

• College of Medicine

Through the period of Korea's industrialization and economic growth this proud tradition and capability of the College of Medicine has started the operation of 3 hospitals, Anam, Kuro, Ansan in its fence. These 3 hospitals, having grown to the capacity of 2,000 beds in total, are now landmark hospitals with its leading specialties for the community and the nation's health. There are more than 20 institutes under the College of Medicine which have well arranged the research on basic medicine and on clinical medicine in harmony and led Korea's advancement in medical science.

• College of Education

The graduates of the College of Education are known to be fully active in all kinds of professional education fields such as teaching, education policy and administration organization, education related organization, corporate, and public media based on such educational ideology. The study fields include Education, Physical Education, Home Economics Education, Mathematics Education, Korean Language Education, English Language Education, Geography Education, History Education, and Computer Education.

• College of Information & Communications

The College placed first among all the science disciplines at KU in terms of 2007 student college entrance exam scores. In addition, it also ranked first in the nation-wide benchmarking of information and communications providers. The College continues to attract excellent students from abroad and is continuously expanding overseas training for students.

• College of Art & Design

The College emphasizes the importance of basic courses in the belief that "trends and education are different things" and that there can be a disjunction between progressive movements in the art and design field and the realities of everyday education. Some of the efforts include increasing the number of subjects for video and media art, sharing credits and course classification numbers with the Korean National University of Arts, offering lectures on prominent art administrators and curators, planning exhibitions for the graduates, and developing support programs.

• Division of International Studies

The Division of International Studies offers curricula that enable students to acquire expertise in both primary functions (including politics, economics, and law) and primary regions (including Asia and Europe). In addition, partnerships with international organizations and companies are formed, with a focus on such issues as international trade and international development cooperation.

• School of Journalism & Mass Communication

Since its establishment in 1965, the College has produced more than 400 journalists and over 50 professors of journalism and mass communication. The College is the top Korean provider of communications education, both in terms of the graduates' employment rate and social activities and the faculty's research activities.

• College of Health Science

The College boasts a 42-year history of producing top-flight professionals and can boast the finest facilities in Korea. The College's highly-esteemed graduates are contributing to the nation and beyond in their roles as leaders in health and medical circles.

• College of Nursing

The goal of the College of Nursing is to train nurses who can contribute to the promotion of human health and cope with rapid changes in health care and medical treatments. To achieve these ends, the College operates a research-based institute of nursing and has formed collaborative relationships with renowned scholars in the field, both in Korea and abroad.

• School of Interdisciplinary Studies

The College aims to revitalize the training function of leaders for each field, and its educational goal is to promote character, courtesy and professional knowledge which a leader in public sector should prepare. Giving lectures by combining the first major with various essential subjects of its linked major <Public governance and Leadership>, such as Law, Science of Public Administration, and Economics in order to serve functions of fostering leaders for public sector, it puts educational philosophy in helping students to enter into public service or to go on to law school and fostering leaders for public sectors.

• College of Humanities (Sejong Campus)

The College offers Korean Language and Literature, Chinese Studies, English Language and Literature, German Culture-Information, Sociology, Archaeology and Art History, North Koreanology, Media Art of Creative Writing.

• College of Science & Technology (Sejong Campus)

Courses offered by the College of Science & Technology are Information and Mathematics, Computer and Information Science, Information Statistics, Electronics and Information Engineering, Environmental Engineering, Bioinformatics, Food and Biotechnology, Sports and Leisure Studies, Display and Semiconductor Physics, Advanced Material Chemistry, Control and Instrumentation Engineering.

• College of Business & Economics (Sejong Campus)

Economics, Business Administration, and Management Information Systems are being taught at the College.

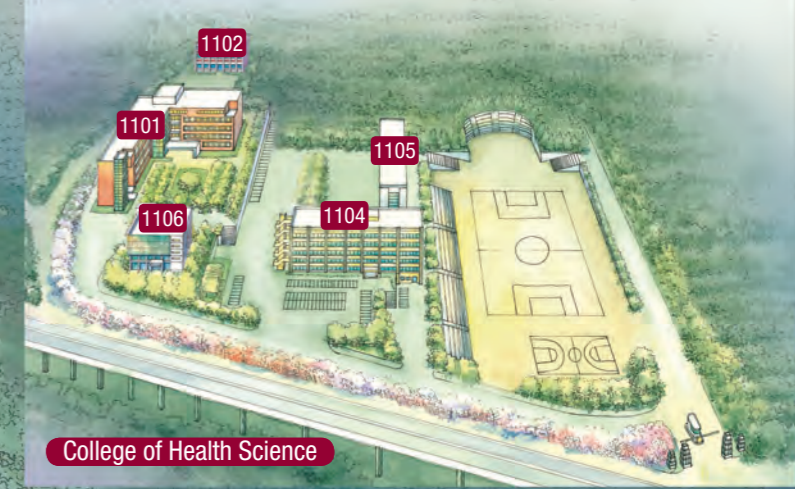

• Division of Public Administration (Sejong Campus)

Public Administration

• School of Physical Education (Sejong Campus)

• College of Pharmacy (Sejong Campus)

Anam Campus
